Central High School  
1990-91

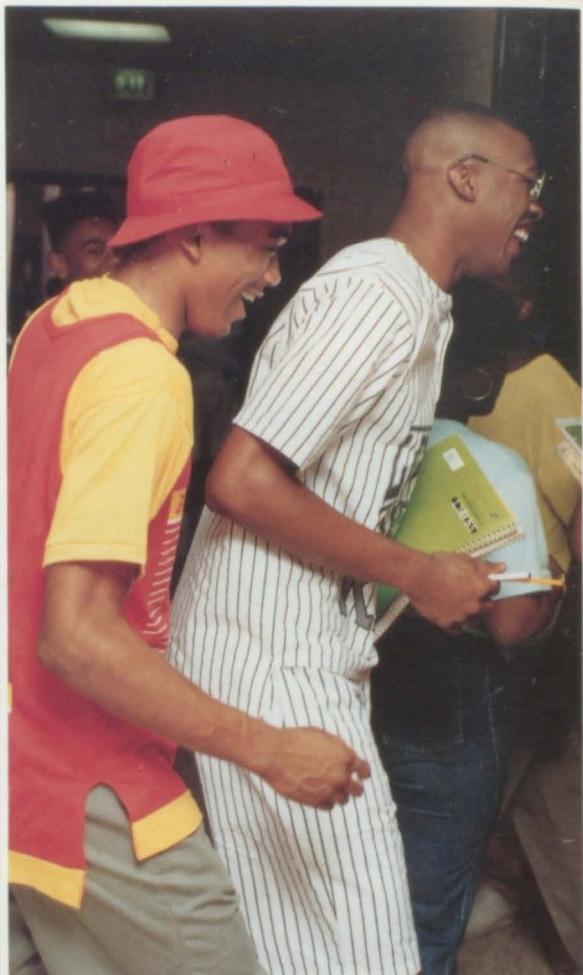

2155 Napier Ave. Macon, GA 31204

Volume 21

The first day of school is a very trying time for all the members of the Central High School faculty. Our faculty works very long, hard days organizing materials and getting schedules prepared for the first day of school. The backbone of the operation is the office staff. They spend many days making sure everything is correct. In doing so, they deal with problems such as: changing schedules, attending to new students, and making sure everything is running as it should.

The first day of school for most office personnel was said to be "frustrating." "There is so much pressure and your basic goal is just to stay on top of things," says Mrs. Mayhew, registrar. She and the other personnel arrive here at school around 7:00 a.m. and usually do not leave until 5:00 or 6:00 p.m..

Since school has started, the office has changed at least 500 schedules. The first day of school is hard and trying on everyone. But no one knows this as well as the office staff!

# AN EVENING OF

**P**reparation for the prom was an extensive effort. Junior class officers chose a theme and picked the colors red, purple, and gold. The idea was inspired by a Belk's display. The set was based on the Arc de Triomphe in Paris.

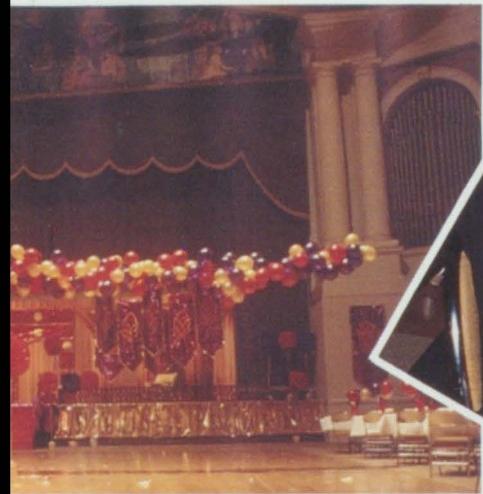

Those involved with planning the prom wanted to grab the attention of the entire student body. There was a great deal of participation including the parents and the teachers. "It's a labor of love, you might say," Toni Ryle smiled. The senior advisors had breakfast together the morning of the prom, when ideas for next year's prom developed.

The teachers involved are: Mrs. Brannen, Mrs. Edwards, Mrs. Holmes, Mrs. Hulgan, Mrs. Kitchens, Mrs. Lee, Mrs. Ryle, Miss Swanson, Mrs. Swint, Mrs. Van Wyck, and Mrs. Knight.

A larger location is being sought for future proms. The attendance is growing every year and parents are getting more involved, watching the leadout from the balcony. "We do the best prom in the city, because we've checked!" chuckled Mrs. Ryle.

An Evening of Enchantment was geared toward spotlighting the seniors. It's a very emotional evening. The students reserved tables and socialized with their friends. Even now, the enchantment lingers in our memories.

Leslie Cronin

# ENCHANTMENT

If everyone had to admit it, of course they love their cars, no matter what shape, color, or condition. Most people feel the same, yes, they love driving; the privilege of "Being able to go somewhere when you want to go somewhere.", as Micha Harris plainly stated. Chip Baker's favorite thing about his car is, "The wind in my hair and Farfegnugen". Kelly Eidam states that her favorite thing about driving is that she always has shotgun! Don't be so sure of yourself, Kel! Jermaine Adkins says that he likes his car because, "It gets the girls". Daminica Henderson, when asked why she named her car 'Bessie' replied: "I just felt like calling it that". No matter if you have a whale, a tank, or a Ferrari, wheels are what it is all about!

**GRINNING** Lori Clark sneaks off campus.

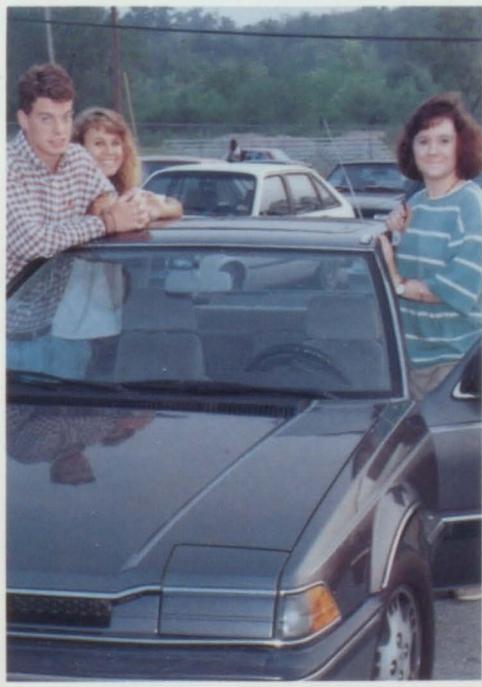

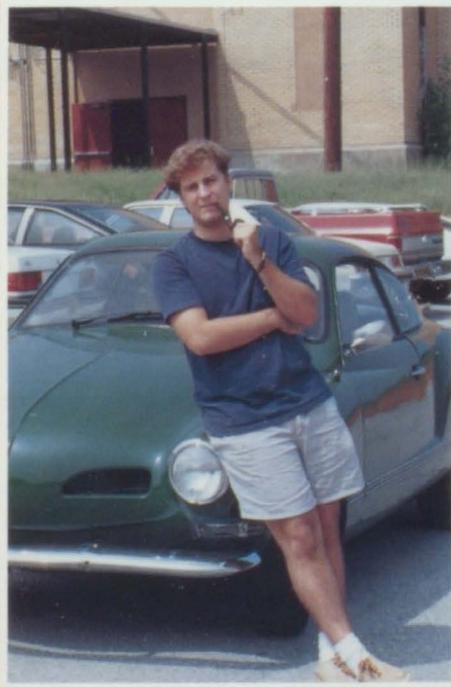

**BASICALLY** ... peace!

**MISCHA'S** great white.

**APRIL** Oglesby bids a fond farewell.

**THOSE** darn speedbreakers . . . !

**PROFESSOR** Baker casually leans against his prized possession.

A happy Central student before an exciting day at school.

**WHAT** can I say?

# SENIORS

# THE REST . . .

# ARE BEST!!

**A**t random, Central students were asked five questions about lives and hobbies. We found that Central students are very similar!

Burger King ranked number one in fast food restaurants with others like Central Park and McDonald's not too far behind. Wendy's came in close ranking fourth;

Students spend most of their money on clothes and different forms of entertainment. Gas and school lunch were also top answers.

The most traveled road was overwhelmingly Mercer University and Vineville Avenue and Napier Avenue tied for second place.

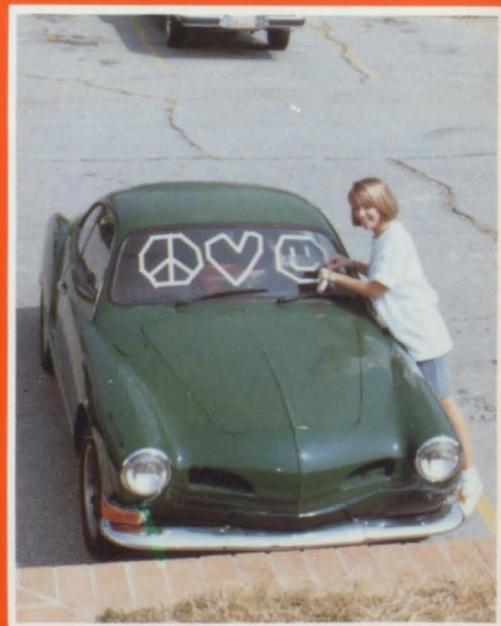

Another question asked dealt with shopping . . . ready, set, charge! The Macon Mall was a main attraction, including all four department stores. Smaller shops, like The Gap, the Limited, and Athletic Attic were also high on the list of favorites.

The last question asked was "What is your favorite type of car?" The very top answer was a BMW. Right behind is an Escort and a Suzuki Sidekick. Surprisingly, Jaguars, Miatas and Corvettes ranked low on the list of student favorites.

Central students are as varied and individual as any large group of people, but they do share some common interests and lifestyles.

What is everyone wearing this year? Blasts from the past and new things too! With the 1960's came peace, love, and happiness and also mini-skirts and tye-dyed t-shirts. These days, mini-skirts are everywhere and you can find anything and everything tye-dyed. Many of the hippest outfits at school have come straight from our parents' old closets. Since the building of the transcontinental railroad and the recognition of a man named Levi Strauss, we've all had at least one outfit in common with each other and most of our parents and teachers too. The classic "Levi's-with-a-white-t-shirt-and-tennis-shoes" look will never be out! Most people wouldn't trade their favorite pair of blue jeans for an 'A' in any subject.

So what does a nineties child wear? Well if you asked you might hear, "I wear: bangles, beads, bows, spikes, neon, studs, watches, velcro, buttons, chuck's, leather, sweatshirts, sweaters, hats, hoods, overalls,

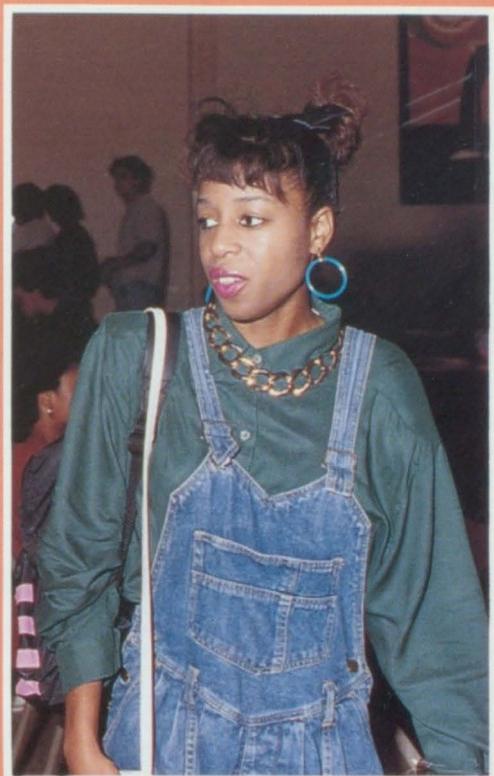

4  
suede, umbros, tank tops, cut offs, Nike's, medallions, Deckheads bobo's, boots, bike shorts, Polo's, pumps, peace signs, paisley's, satin, fishing swivels, . . ."

**1990**

1990- A new decade and the beginning of a new age. We're still waiting for Exxon to finish their clean-up job in Prince William's Sound. Nature has been playing havoc with a couple of the U.S.'s major cities like Charleston, S.C. and San Francisco, but still the U.S. has time for new problems. Bush is still trying to make his war on drugs effective but that's been difficult while trying to prevent a war with Iraq over cheap oil prices. Space Shuttle Columbia is trying to get off the ground, now on its third try. Not only has the Berlin Wall come down but the Communist barriers, separating East and West Germany, re-uniting Germany under a non-communist government. Who knows what this new decade will hold? With a year like 1990 it should be interesting.

"Young lady, you know that's so!"

Without such an excellent faculty and administration, Central High School could not exist. These people set the school's policies and goals.

The faculty and administration are responsible for the growth of the school. They are involved in other activities such as coaching academic and athletics teams, advising clubs and classes and getting involved with student activities.

The staff is very versatile. Several of our staff are involved in community theater, music groups, recreational and competitive sporting events and community service organizations.

The faculty and administration play an important role in the school. These people make Central High School what it is today.

This football season for Central proved to be one full of frustrations. The mighty Chargers exploded with overwhelming victories in the beginning. Behind the running of William "Blue" Cliett, the leader for the Chargers and a top prospect for college football, the Chargers were expected to do well. But, Chargers failed to finish with an impressive record. Maybe next year. Good luck Chargers in 1991.

# Basketball

Pages 138-145 designed by Chad Frazier

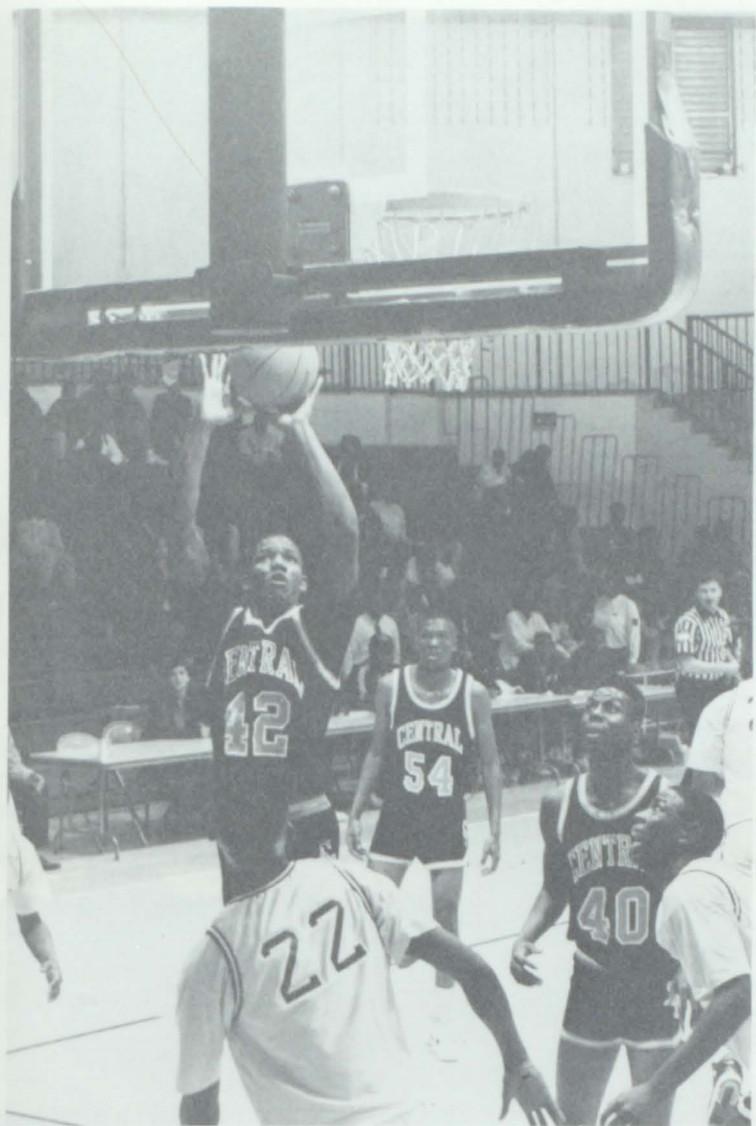

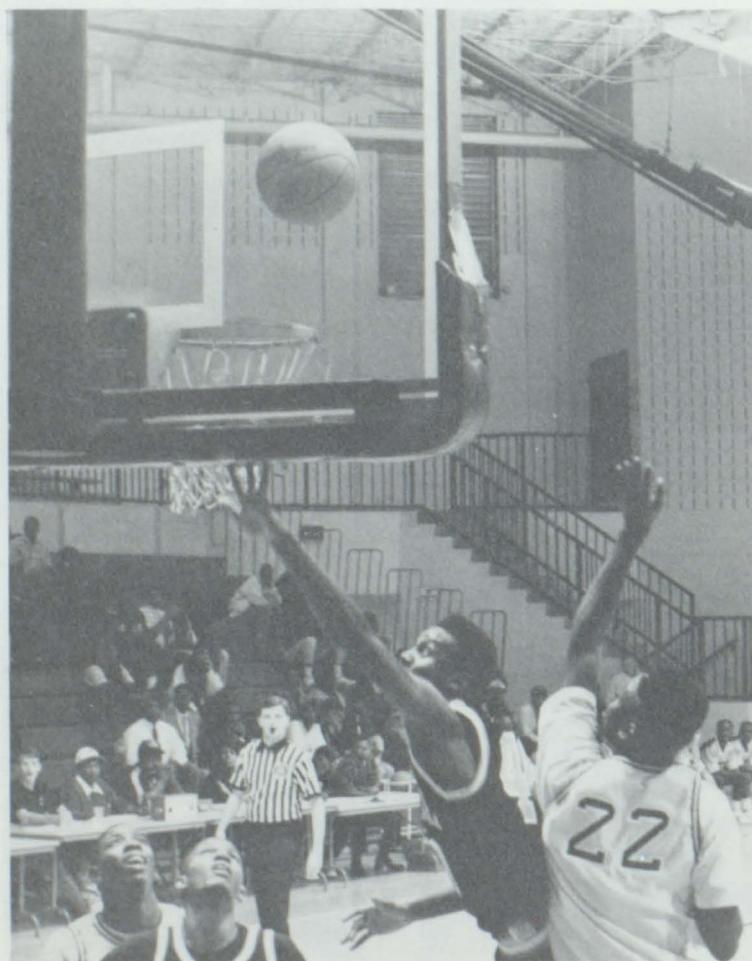

Central Basketball has made their "Marc" this year by currently climbing the ladder to number 2 position in the prep poll. Leading the way are two brilliant seniors, Marcus Grant and Marcus Little. Grant has been very impressive, averaging about 24 points per game and close to eight rebounds followed by numerous exhilarating slam dunks. Grant has proved to everyone that he has a future in college basketball.

Marcus Little is the "Little" Big man on the court. At a height of 5'10" Little is perhaps the "Juice" in the Orange. He is the key to the whole functioning of this team. Little also is planning to play college basketball.

The rest of the team including starters Michael Billingslea, Alvin Kitchens, and Ennis Washington have proven to be strong foundations for the Charger team.

The Central Soccer Team reached new heights this year. In its second year the team proved to be quite a powerhouse. City Championship was easily captured. The team expanded to a regional schedule and once again held its own. Soccer has become a very prominent sport at Central High School.

The 1990 Varsity Baseball team reigned as Co-City Champs this year. The title was won after eight straight wins. The team consisted of many young and talented players. With hard work and great coaching by the now retired W.C. Jones, along with assistant coach Steve Smith, Central followed the road to a great season.

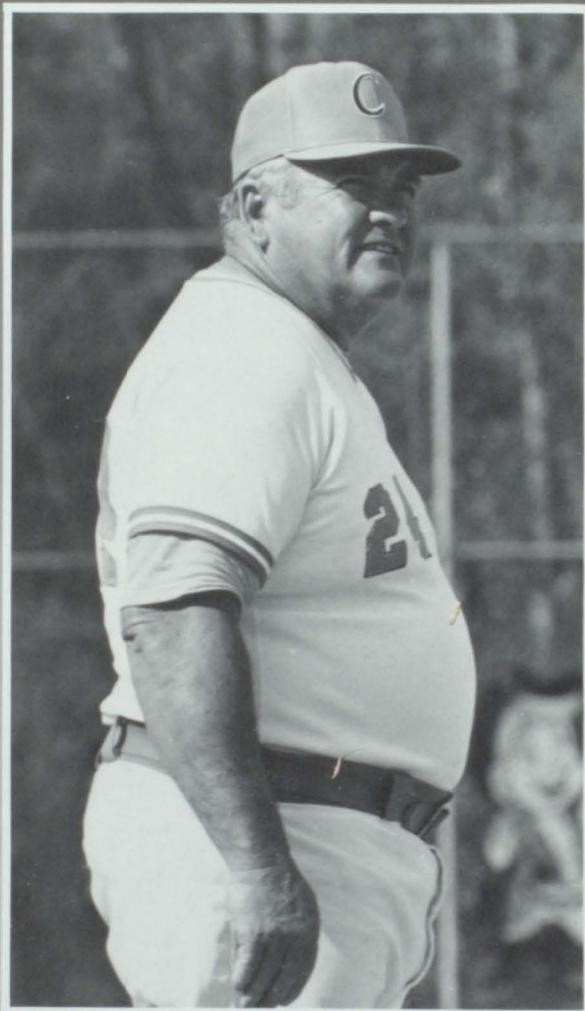

Although Central failed in the playoffs everyone seemed pleased with the season. The past season was dedicated to Coach W.C. Jones. With a new road ahead, Central Baseball will start a tradition of winning.

# Central R.O.T.C.

The Central High School JROTC is noted as one of the oldest JROTC units in America, and ranks in the top 20% across the country. The Central High School JROTC started in 1917 when Central was a school for boys; for fifty years JROTC was a required class.

Through the years the JROTC classes at Central have become a tradition. In March there is a Military Ball. On parade days everyone has his brass sparkling, and we can also see the Golden Boots "show their stuff; in a drill meet.

# Rockin' Out

The last Friday concerts provide local entertainers the chance to perform. Seen here are David Stevens, Andrew Burnes, and Howard Jefferson (The Buttercats). Dax Taylor, Rachel Weksler, Jason Mundy, and Karen Porter seem to be enjoying the show.

Macon and Victorian Village were treated once again to the folk-acoustic-rock sounds of Athens-based duo, Indigo Girls. A power surge provided a half-hour intermission when Amy Johnson's electric guitar delivered a jolt of electricity. She was shaken, but unharmed. The concert continued when things calmed down, and was a great success.

# Macon Sights . . .

1. Many students like the view from Coleman Hill.

2. Jason Churchwell's imitation of the Third Street Fountain.

3. The Georgia State Fair is an annual tradition in Macon.

The beautiful sights of Macon attract people from all reaches of life. Central students are no exception. They like to get out and about and see the many things Macon has to offer. Macon is rich in its historical treasures. The Hay House, the Woodruff House, and the Sidney Lanier Cottage are just a few of the historic homes in the area.

Students might also like to spend a day in the park. Whether playing a sport or just enjoying the view, everyone can find something he likes. Some of the favorites are the Washington Park, Third Street Park, and Central City Park.

The Georgia State Fair comes once a year to Central City Park. The fair offers students a chance to forget about work, be with friends, and just have fun. All in all, most students will agree that Macon is a pretty neat place to be.

4. Chandler Clark, Nathan Griffin, James Freeman, H.G. Hollans, and David Norman enjoy Washington Park.

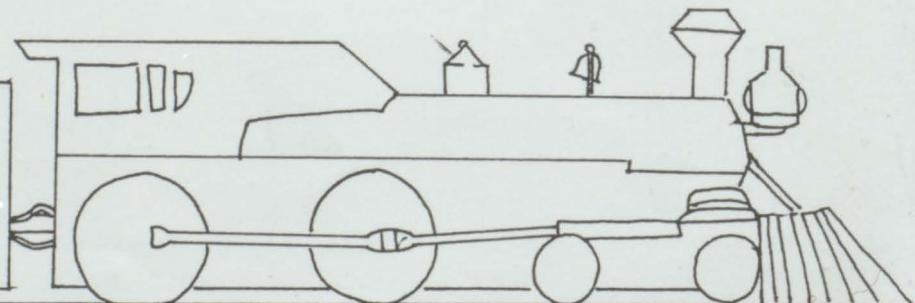

5. David Norman tries to get into the Woodruff House.

And if ever there was it led forward life and does not

As many of you may be aware, 31 Central students recently took a trip to Washington, D.C. to participate in the 1990 Princeton Model Congress, a mock demonstration of how the U.S. Congress actually works, run by students of Princeton University in New Jersey. The Central students were accompanied by three adults, including advisor Bessie Brown. All participants will probably agree that the trip was a success.

Planning started early; a car wash was very successful, netting over \$250 in donations, a donut sale took place in November, with profits of well over \$100. A spaghetti supper was also held on November 30. Due to donations from parents of participating students, and the work of parents and students, all events proved worthwhile.

Upon arrival in Washington after a 14 hour Amtrak train ride, students went directly to the Hyatt Regency on Capitol Hill where all participants would stay, and where most events would be held. A total of 756 students were present, represent-

ing 25 schools from various parts of the country. The majority were from New York, New Jersey, and Pennsylvania. Each student had been previously assigned to a committee either in a House or Senate of which there were three each. Each student (who played the role of a Senator or Representative) had written a bill or resolution suitable to their committee topic. Some students had chosen to be a part of the press corps, which published two papers entitled "The Princeton Gazette" or the National Security Council for which each participant wrote a paper to be rated.

The following morning John Dunne, Assistant Attorney General for Civil Rights, spoke to the Princeton Model Congress of the importance of civil rights and the views on scholarships and educational funding for minority students. The rest of the morning and evening were dedicated to committee meetings. The afternoon was free time.

Most of Saturday was used for committee meetings and general sessions, during which bills that had already passed in committee were brought forth to all of the Senate or all of the House. Saturday evening, a dance was held for all participants.

Sunday, the final day, was spent in general sessions in the morning. The weekend concluded with awards and a closing ceremony.

Central fared quite well in the awards ceremony. Saumil Shah came away with a gavel award and an award for outstanding participation in the moot supreme court. Leon Brock, who participated in the National Security Council received superlative rating on his paper concerning the status of relations between China and the United States. Eric Tryggstad received an award for his participation in the press corps. Leighton Dumas was given an honorable mention for his participation in committee. Will Moore and Greg Winters received awards for their debating ability and the quality of their bills.

The program gave students valuable insight in the legislative process of our government, and a strong appreciation for the legislation and legislatures of our country.

Dear Sunshine,

Graduation night, it was only yesterday. I still recall how you marched down the aisle in perfect form, stepped onto the stage when they called your name, and the look on your tiny, radiant face when you were handed your diploma. Daddy and I had to wipe the tears away. We reassured ourselves you were just a baby and that we would have you for many more years, but that was yesterday and this is today. Today it will be hard for us to give you up, but it is our dream for all of your dreams to come true. We are proud of you and the choices you have made and of the love you have for your family, friends, God and our country. Proverbs 31:29 says, "Many daughters have done virtuously, but thou excellest them all."

As I look back on life's trials,  
I see where I have failed,  
Making wrong decisions,  
All along the trail.

Having learned from these experiences,  
I have found something new,  
To share with others,  
The hardships that I have been through.

To think that I have helped  
Is compensation enough,  
To keep on striving,  
Through the good times, and the tough.

Curtis Carter, Jr.

Congratulations, C.C. and good luck. We're so proud of you.

Love,  
Mom, Dad, and Bear

Dear Andrea

We've stood by you when the icing was thick and we've watched you proceed and excel throughout the years. You're going off to college and you're on your own. I can't be there to help you when you fall, but please remember that I'll always be here when you need me.

"Hey! — I love you!"

We would like to take this opportunity to express our thanks to several groups and individuals. First, to Mrs. Leontine Espy, for her steadfast support, guidance, and optimism; the faculty for their cooperation and understanding and Mrs. Judy Van Doorn for her help and advice.

Our beautiful cover is custom-designed, craftline embossed. It was created by students during a brainstorming session at yearbook camp. This unique, one-of-a-kind design uses our own mascots, the Charger and the Pegasus. The board weight is 120pt. The cover is black 535 on a cordova grain material with applications of copper foil 382. The endsheets were designed for Central as well. They are black ink on orange paper. The basic copy style for the book is Times Roman. Other types, such as Honda, Vineta, Brush Script, and American Text were used. Dropped initials and lead-ins were used in the opening section, along with a spot color application of orange.

The point sizes are as follows:  
captions — 8pt.  
body copy — 10pt.  
headlines — 30pt.  
division page — 72pt.

"GOT MY ORANGE CRUSH"

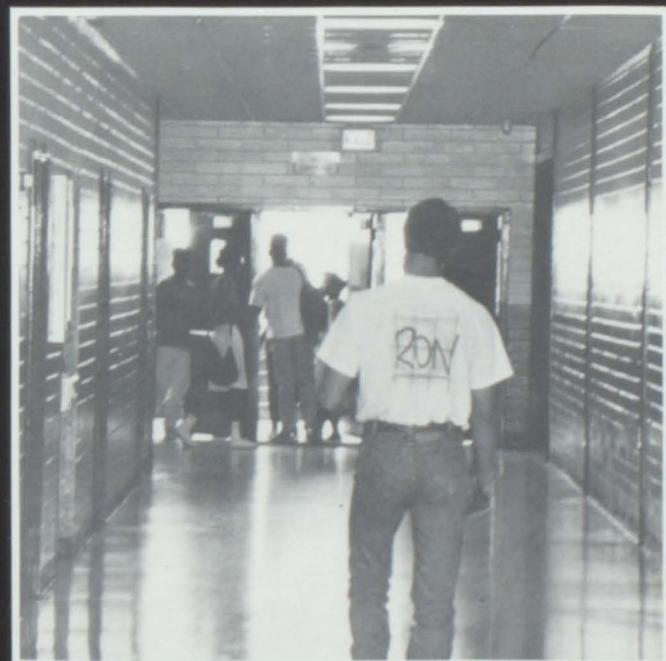

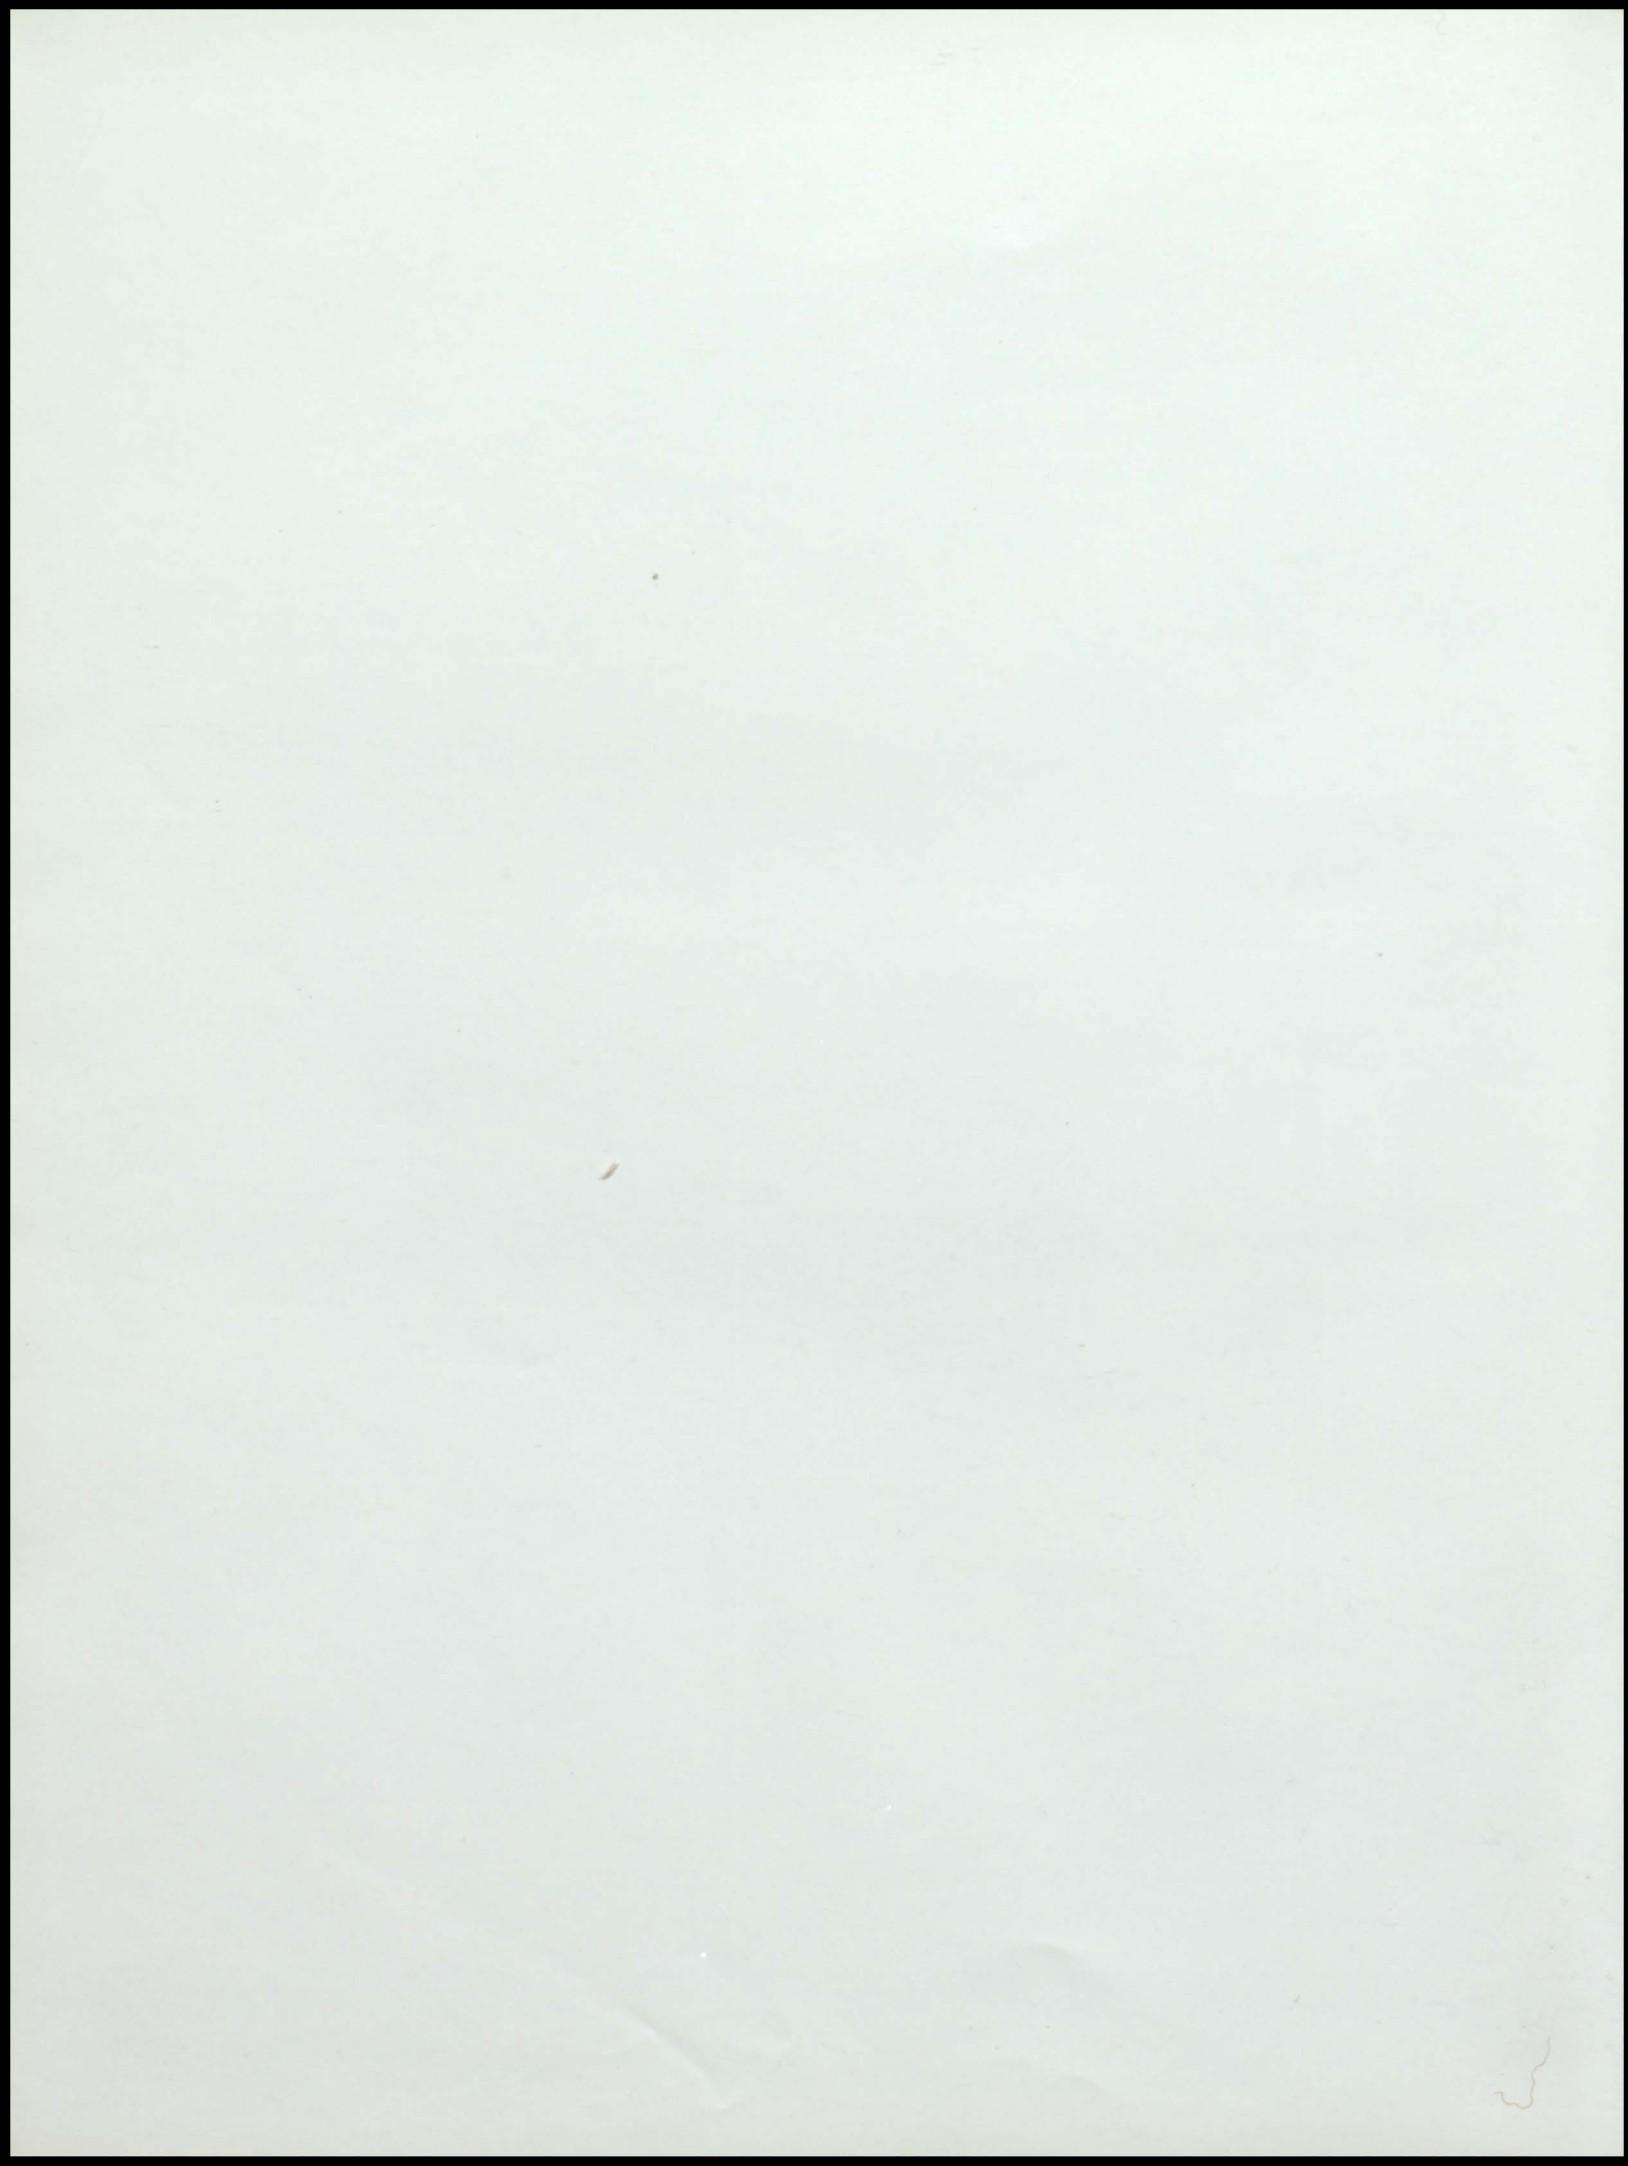

# *The End . . . Or The Beginning?*

What happened in 90-91?: the unity of East and West Germany; Iraq invaded Kuwait; the return of straight leg and belled pants; "the Sixties look" was hip; rap music captured a number one rating on the pop chart; freedom of speech still held up in court; MTV banned Madonna; Bart Simpson said "Don't have a cow man" and the country made him number one; The Teenage Mutant Ninja Turtles frequented Pizza Hut and every television and movie screen; Bush raised taxes; Donald Trump took a dive; Cincinnati Reds won the World Series; McDonalds opened its first store in the USSR; the Muppets creator, Jim Henson was laid to rest; War was in and peace was forgotten (however gasoline wasn't.)

As we come to the end of another year we reflect on the past. To those graduating this year the future is now in their hands. Let's hope it's in their thoughts as well.
